It is the intention to negotiate a proper loan in the United States. The bonds will be payable in American gold, and are to be advertised in New York. WASHINGTON, Aug. 7 .- R. T. O'Brien, formerly corporal of Company M, Thirtysixth Infantry, United States Volunteers, was indicted by the grand jury here last Monday, but the proceedings were kept secret pending his arrest at North Adams, Mass. The action is based on testimony given before the Senate committee on the Philippines on May 9 last, in which he severely arraigned the moral conduct of certain officers and enlisted men. Senator Lodge, chairman of the committee, shortly after this testimony, called the attention of the attorney general to O'Brien's statements, and United States District Attorney Gould was directed to investigate. The case was then given to the grand jury. District Attorney Gould will personally T. M. Pierson, of St. Louis, vice president | conduct the case for the government. The S. Riley. After the postponement the defendant was taken to the House of Correction here, where he will remain until to-morrow's hearing.

HEALTH OF THE TROOPS.

the Philippines Increasing. WASHINGTON, Aug. 7.-Surgeon General Forwood to-day received a report from the Division of the Philippines, giving a detailed account of the health of the troops in those islands for the month ended June 15 last. The report shows a considerable increase in percentage of sick, as compared with that of last month. In the South Philippines sickness has increased in quarters, station hospital and department hospital, but, the report says, the reason for this cannot be indicated at this time. Cholera has attacked two officers and sixty-two Americans and one native soldier. Most of these cases occurred in Laguna and Batangas. The cause in the majority of instances has been the drinking of infected water and a few cases were due to food, contaminated either by handling or by flies. In Samar and Leyte some cases are reported, but the disease has not spread widely. In the Camarines Sur the epidemic seems to have been stamped out. but in Laguna and Batangas and the adjacent parts of the province of Tayabas cholera has spread in virulent epidemic form, many cases having occurred without
